

ISRAEL ALABI

337-688-4004 | alabiisrael881@gmail.com | Lake Charles, LA

EDUCATION

McNEESE STATE UNIVERSITY

Lake Charles, LA

Bachelor of Science in Mechanical Engineering

Jan. 2023 - Date

Minor: Electrical Engineering, Mathematics

Cumulative GPA: 3.82

Relevant Coursework: Fluid Mechanics, Strength of Materials, Machine Design, Statics, Elementary thermodynamics, Material Science, Dynamics of Machinery, Engineering Measurements, Dynamics, Engineering Economics, Engineering graphics, Digital systems design, Dynamics, Electric Machinery and Power Systems.

RELEVANT EXPERIENCE & PROJECTS

Baja SAE Project | CAD Lead & Drivetrain Team Member

Aug. 2024 - Date

McNeese Automotive Engineering Club

Lake Charles, LA

- Worked with a team of engineers and enthusiasts to build a 4WD all-terrain vehicle for Baja SAE competition from scratch.
- Engineered propeller shaft and CV axles in *SolidWorks*, ensuring seamless fitment with chassis and suspension subsystems.
- Co-developed the pedals system, optimizing driver ergonomics compatibility while ensuring proper force transfer in brakes system.
- Participated in the manufacturing of the suspension system which involved cutting, bending, notching and TIG welding tubular steel into suspension arms.
- Designed safety harness and seat mounting tabs in adherence to the SAE guidelines and stipulations.
- Designed mounts for the engine and transmission, supporting structural integrity and serviceability. Also aided in the welding of the mounts to the chassis.
- Modeled trailing arm mounting plates in *SolidWorks* to secure rear wheel knuckles, balancing strength and manufacturability.
- Collaborated cross-functionally with suspension team to assemble wheel outboards and trailing arm systems.
- Contributed to iterative design reviews, implementing structural modifications to optimize integration with other subsystems like the *chassis* and *suspension* systems.

Robotics Project | Team Member

Jan. 2023 – May. 2023

Intro. to Engineering, McNeese State University

Lake Charles, LA

- Collaborated with a team of three engineering students to design and construct an innovative endless spinning fidget spinner as part of an engineering class project.
- Utilized CAD software to design and construct the connecting arm from the wheel to the time-controlled motor, enabling the seamless operation of the endless spinning fidget spinner.

WORK EXPERIENCE

Student Tutor

Aug. 2025 – Date

McNeese State University

Lake Charles, LA

- Provided academic support to undergraduate McNeese students in Algebra, Pre-Calculus, Calculus, Physics, and Engineering courses, enhancing their understanding and improving performance in assessments.
- Collaborated with fellow tutors to create an inclusive and motivating learning space for students.

Lab Monitor

Jan. 2024 - Date

McNeese State University

Lake Charles, LA

- Assisted students in troubleshooting technical issues with library desktop computers and printers, providing timely and effective support.
- Trained peers and students on basic troubleshooting techniques for library equipment to promote self-reliance and efficiency
- Maintained logs of recurring technical issues to identify patterns and recommend long-term solutions, enhancing system reliability.

Receptionist

2021 - 2022

Harris Global Health

Akure, Ondo State, Nigeria

- Managed front desk operations by greeting visitors, answering phone calls, and addressing inquiries, ensuring a welcoming and professional environment
- Trained peers and students on basic troubleshooting techniques for library equipment to promote self-reliance and efficiency
- Coordinated scheduling, maintained records, and assisted in administrative tasks to support efficient office operations
- Handled confidential information with discretion, ensuring compliance with organizational policies and data privacy standard.

EXTRACURRICULAR & VOLUNTEER ACTIVITIES

American Society of Mechanical Engineers | Member

Jan. 2023 - Date

National Society of Black Engineers (NSBE), McNeese Chapter | Member

Jan. 2023 - Date

TECHNICAL COMPETENCIES

Engineering Software: AutoCAD, MATLAB, SolidWorks, Fusion 360, Tinkercad, Falstad.

Programming Languages: Python, Java Script, HTML, CSS, Microsoft Office Excel.

Technical: Welding, Tube & Metal Fabrication
